sanket-wadibhasme

SUMMARY

Aspiring Software Engineer with hands-on experience in Java, Spring Boot, JavaScript, MySQL, and REST API development. Strong foundation in data structures, object-oriented programming, and software engineering, with a passion for solving real-world problems and building reliable applications.

EDUCATION

Bachelor of Engineering, Information Technology 08/2023 – Present | Pune, India
International Institute of Information Technology, Pune
CGPA: 9.46 / 10

Higher Secondary Education (12th), *Seth Gopikishan Agrawal High School* 2022 – 2023 | Tumsar, India
Percentage: 91%

Secondary School Education (10th) 2020 – 2021 | Mohadi, India
Late. Sulochana Devi Pardhi High School, Mohadi
Percentage: 91%

EXPERIENCE

Java Full Stack Developer Virtual Intern, *AICTE – EduSkills* 01/2026 – 03/2026

- Developed full-stack web applications using Java, Spring Boot, HTML, CSS, JavaScript, and MySQL.
- Built RESTful APIs and implemented CRUD operations following MVC architecture.
- Applied Git for version control while strengthening software engineering and problem-solving skills.

PROJECTS

Student Performance Intelligence System,
Tech Stack: Java | Spring Boot | Spring Data JPA | MySQL | REST APIs | Python | Flask

- Developed a full-stack application for academic data management, covering students, faculty, subjects, examinations, marks, and attendance.
- Designed relational database entities and REST APIs, with analytics for student performance, attendance, rankings, and departmental insights.
- Integrated machine learning models for student performance prediction and early identification of at-risk students.
- Built a dashboard to visualize academic metrics and prediction results; tested APIs using Postman and managed code with Git.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, SQL, C/C++(Basic), python(Basic)

Frontend: HTML, CSS, Bootstrap

Backend: Spring Boot, REST APIs, Hibernate, JDBC

Databases: MySQL, MongoDB

Tools & Platforms: Git, GitHub, Postman, IntelliJ IDEA, VS code, Linux/Ubuntu

Concepts: OOP, DBMS, Problem Solving, DSA, CRUD, Software Engineering Fundamentals, MVC Architecture
